

## Job description : Analyst developer

Ubike is a Brussels-based scale-up of about 15 people active in the dynamic bike leasing market. Our bike leasing offer is aimed at companies of all sizes in Belgium and Luxembourg. Our ambition: to contribute to a greener mobility, to make bicycles accessible to all and to be much more than a leasing company!

### Your responsibilities :

- You build efficient, testable, and reusable PHP/Symfony (Backend) and React (frontend) code
- You contribute to functional and technical analysis of priority IT projects of the company
- You ensure that all project work is reviewed and meets quality and accuracy requirements
- You are in charge of optimizing application for maximum speed and scalability by ensuring they are maintained and documented
- You work as a team player in an agile team with other developers with 2-week sprint
- You review the work of your colleagues through pull request

### Your profile :

- You demonstrate at least 2 years of Web PHP application development with any MVC framework
- You have knowledge of HTML5 and CSS3 and some basic knowledge basic with react
- You are able to use day to day tools like git, composer, REST, json, postman, mysql, docker, swagger
- Fluent in Dutch or French, you also have a good level of English
- Organized and highly technical, you are multi-tasking and pay attention to detail
- Ability to work in a multidisciplinary team environment, with good communication skills, and to work independently while focusing on project details, timely delivery, and system quality.
- Authentically curious, you love learning and improving yourself
- You have good analytical skill: you identify workarounds to achieve our goals

### Nice to have :

- Experienced with the Symfony framework and sulu.io CMS
- Having worked on enterprise backend in a start-up context
- Previously worked in a cloud-based environment (preferably AWS)
- Experience with React.js is a plus
- Experience with automated testing is a plus
- Ability to write and read documentation, in English
- Familiar with Agile/Scrum methodology

### We offer :

- A dynamic and ever-changing work environment in a growing industry and company.
- The opportunity to work in a key position within a highly enthusiastic and inspiring team, focused on collaboration and customer service.
- A permanent, full-time contract (38 hours/week), which will be executed in whole or in part in our offices located in Brussels (Ixelles-Elsene), close to public transport
- A possible evolution within the company (really!)
- A lot of autonomy and confidence in the execution of your key role
- An attractive salary including a thirteenth month
- Extra-legal benefits: meal vouchers, eco-cheques, bicycle mileage allowance, etc.
